Fence Art

Your park will be beautified and energized with a temporary installation on the fence created by talented artists from the Tempe community. Their designs will be inspired by input from you!

Meet the Artists

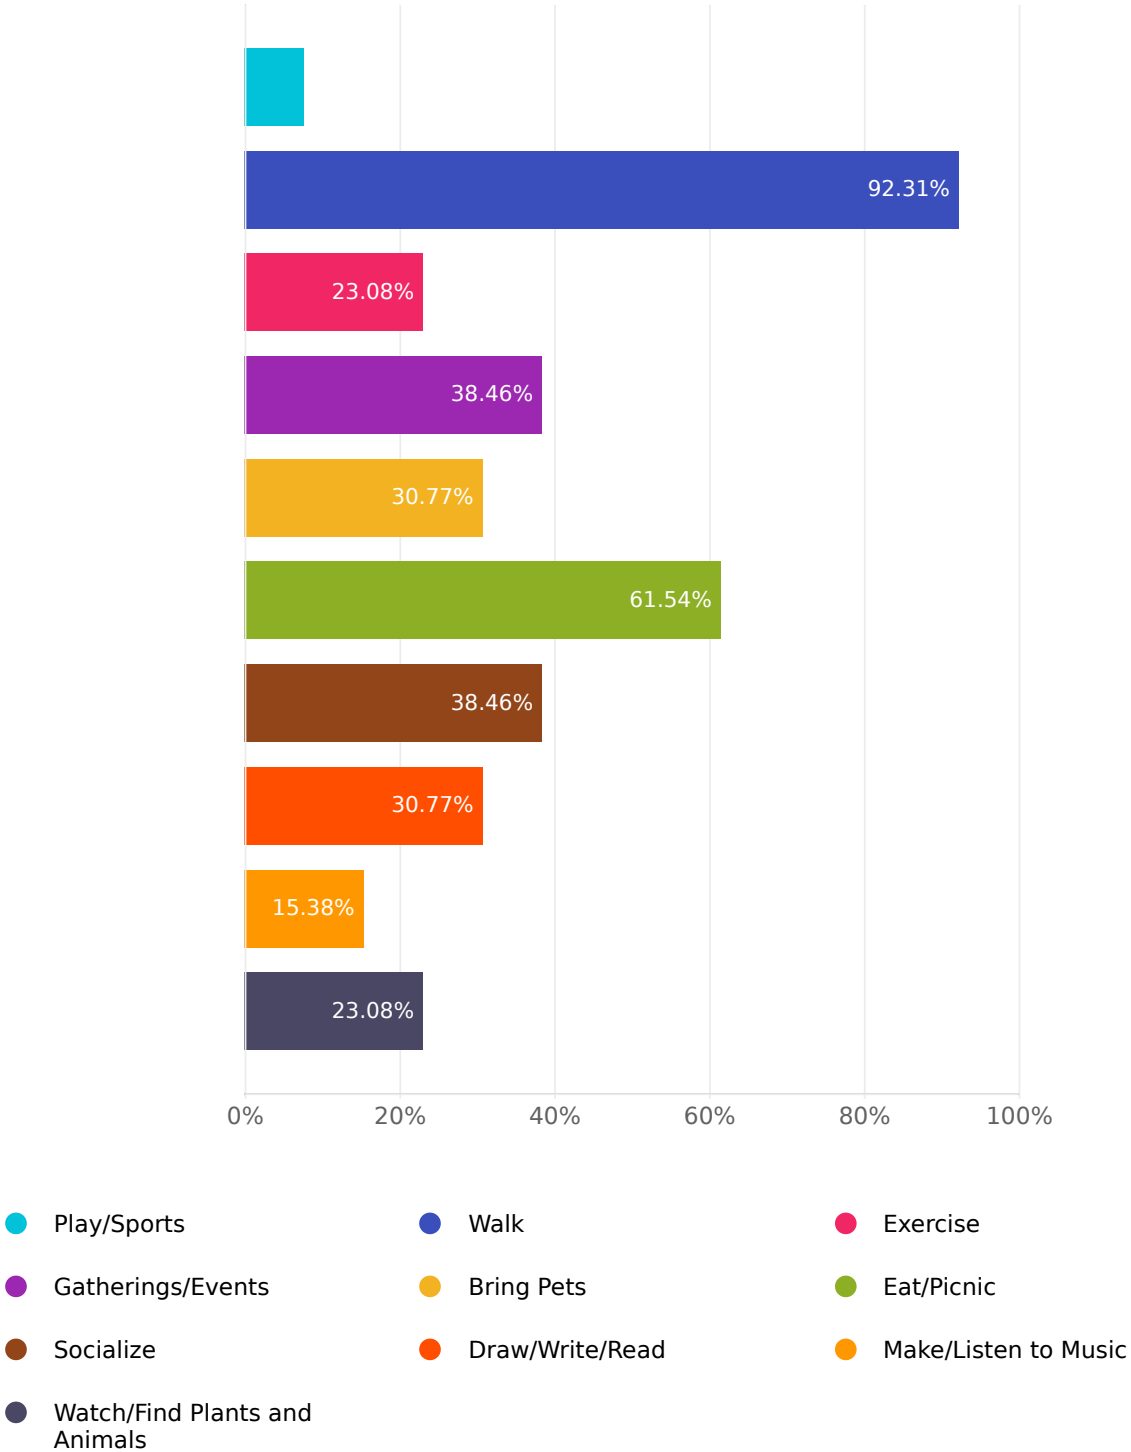

Koryn Woodward Wasson and **Roy Wasson Valle** have been working together since 2014 to make large scale interactive artwork installations. We are driven to make work which asks others to participate. It is part of our mission to share our understanding of the magic of being a small part of the larger world. What we do is one part of the conversation, and we look forward to learning what the people of Tempe would like to share with us for this new project. Visit [Artist Website](#)
